

Activity

Practicing these skills helps you to increase awareness of thoughts, feelings, and behaviors to improve your mental health and wellness.

Emotion Monitoring

Being able to monitor and track your mood is an effective skill for helping to increase your emotional awareness. It can also help provide information about the things you may need and help you communicate that need. For this week, pick three emotions you will monitor. Track the intensity, physical sensation, and what was happening at the time you felt each emotion.

Emotion: _____	Emotion: _____	Emotion: _____
Rate intensity:	Rate intensity:	Rate intensity:
Physical sensations:	Physical sensations:	Physical sensations:
What was going on:	What was going on:	What as going on:

Follow-Up

When you rate your feelings, you're gathering data about your experiences over the past week. If there are emotions that you're hoping to feel more or less, the skills reviewed in the additional videos and worksheets of this curriculum will help. You can use worksheets like this one each week to track your progress and figure out how the skills might be affecting your feelings.

Activity

Practicing these skills helps you to increase awareness of thoughts, feelings, and behaviors to improve your mental health and wellness.

Paced Belly Breathing

Breathing deeply into your belly helps to tell your body that you are safe and calm. Follow the instructions below and practice paced belly breathing when you are feeling calm and when you are feeling stressed or anxious.

- 1 Sit comfortably in your chair or on the floor either cross-legged or on your shins.

- 2 Place one hand on your belly and one hand on your chest.

- 3 Breathe in slowly through your nose for 4 seconds and feel your belly expand.

- 4 Slowly breathe out for 5 seconds through your mouth, letting the air gently leave your body.

- 5 Repeat 3-5 times, or for as long as you want.

Keep a log to plan when you will use relaxation skills.
Plan self-care activities, too.

Practicing these skills helps you to increase awareness of thoughts, feelings, and behaviors to improve your mental health and wellness.

Understanding Thoughts

Remember thoughts are not facts, and sometimes thoughts are unhelpful to us. One way of practicing understanding your thoughts is by keeping track of them when you notice uncomfortable feelings. Below is a thought log. Practice identifying what was happening at the time, what your thought was, how you felt, and what you did. If you notice that the thought was unhelpful, try to change it to a more realistic or helpful thought, and then see if that would change your feelings and behaviors.

Our thoughts, feelings, and behaviors are all connected. By changing our thoughts, we can change how we feel and how we behave.

Event	Unhelpful Thought	Feeling	Alternative/Helpful Thought

Here are some things you can ask yourself when trying to change your thoughts:

- What is the likelihood that this will happen?
- Is this realistic?
- What is the evidence that this is true?
- Is there another way I can think about this?

Follow Up

When you notice how your thoughts are connected to how you feel, you're gathering data about yourself. If you notice that certain ways of thinking are not all that helpful or lead to uncomfortable feelings, remember that you have the power to slow down and consider when there might be other ways of thinking about the situation. The skills reviewed in the additional videos and worksheets of this curriculum can also help!

Activity

Practicing these skills helps you to increase awareness of thoughts, feelings, and behaviors to improve your mental health and wellness.

Self-Soothe Kit

You can use your five senses to self-soothe and help tolerate intense emotions. Use the guide below to create your own self-soothe kit.

You can carry this self-soothe kit with you so you always have what you need to tolerate intense feelings.

5 Senses	One thing that makes me calm and relaxed is:	Stumped on what to pick? Here are some suggestions:
See		<ul style="list-style-type: none">• Calming colors• A relaxing scene• Small picture of my favorite person, family member, athlete; or place to visit
Hear		<ul style="list-style-type: none">• Listen to rainstorm or ocean sounds• Recordings of funny jokes or comedians• Happy or soothing music
Smell		<ul style="list-style-type: none">• Good-smelling hand lotion• Small perfume bottle• A scented candle
Taste		<ul style="list-style-type: none">• Pieces of your favorite candy or other treat like gum or a mint• Tea
Touch		<ul style="list-style-type: none">• Satin ribbon or soft fabric• A small pompom or pouf• A small feather• A stress ball• Slime
