

Activity

Practicing these skills helps you to increase awareness of thoughts, feelings, and behaviors to improve your mental health and wellness.

Paced Belly Breathing

Breathing deeply into your belly helps to tell your body that you are safe and calm. Follow the instructions below and practice paced belly breathing when you are feeling calm and when you are feeling stressed or anxious.

- 1 Sit comfortably in your chair or on the floor either cross-legged or on your shins.

- 2 Place one hand on your belly and one hand on your chest.

- 3 Breathe in slowly through your nose for 4 seconds and feel your belly expand.

- 4 Slowly breathe out for 5 seconds through your mouth, letting the air gently leave your body.

- 5 Repeat 3-5 times, or for as long as you want.

Use the space below to think about times to practice paced belly breathing:

Before going to bed

Before taking a big test

Before sports practice

In the morning at school

After getting into an argument with a friend

Outside, sitting down, and enjoying nature
